	ABOUT SUPPLY NETWORK AGENCY	9
	OUR MISSION.....	9
	OUR BUSINESS MODEL	9

1. Introduction

Supply Network Agency understands the issues caused by massive workload on organization conventional management systems and believes it can provide client with the most cost-effective solution. Our outsourced services of management system solutions provide efficient and upgradable platforms which are easy to adopt, manage, and modify. Once the outsourced services is implemented, our clients have access to 24-hour support throughout the life cycle of the service. Our team of dedicated personnel is always on hand to assist our clients and we pride ourselves on the exception customer support that we offer. Supply Network Agency is confident that we can provide client with a superior solution and support in order to meet its long-term goals.

2. Client Operations

Supply Network Agency's proposed solution that enable the Internal OSH Management department function to be co-organized by third party management department. This circumstances provide the business entity a different perspective on the organization behavior towards external effort in driving a new benchmark on the company. Additionally, by utilizing the Supply Network Agency solution, Client's Full Time Employee can re-focus on day to day operations in order to support the company's operations and improve organizational performance while maintaining high integrity of standards compliance.

3. Executive Overview

Supply Network Agency Services helps its clients achieve success by establishing goals and a comprehensive solution based on our clients' needs. Our goals reinforce the commitment we have to our clients:

- 1) Provide leading edge management system solutions which are cost-effective, flexible, and technologically innovative
- 2) Guarantee compliance on documentation, organized records, and timely reporting and distribution.
- 3) Guarantee 24 hour coverage and support for our clients and superior customer service.

Supply Network Agency's proposed solution allows us to meet these goals as well as those of clients. Supply Network Agency uses phased approach to determining the best solution for our clients.

Additionally, all Supply Network Agency employees maintain certifications in appropriate professional organizations and industry fields.

Phase I: Initial Consultation

During this phase our team of professionals will review current Client organization and management systems and practices in order to determine key points and leverage our expertise to develop a more detailed list of options for the client.

Phase II: Solution Design

Our panels will work with the client to design the management solution based on the needs of the company. This tailored approach allows Supply Network Agency to ensure the client gets the solution they need and does not have to pay for excess services which they will not use.

Phase III: Implementation

Our team will implement the solution in a seamless manner that will be transparent to daily operations. This phase also marks the beginning of Supply Network Agency's management of client management and quality operations and the completion of the solution project as we enter the operations and management stage.

Phase IV: Management and Support

This is the final phase and ongoing through the life cycle of the service. Supply Network Agency will assist in managing OSH and management system functions based on the accepted scope of supply. Services and functionality include:

- Monthly, quarterly, and annual quality digital management report and system records
- Improve image and credibility by attaining certification to ISO 9001 and OHSAS 18001
- Improve customer satisfaction by meeting customer requirements
- Integrate processes for better alignment
- Improve decisions by basing them on data from the quality and OHS management system
- Create a culture of continual improvement of the processes
- Improve employee engagement toward process improvement

Benefits for choosing Supply Network Agency for your QMS solution include:

- Reduced monthly costs for Management Representative and Quality Department activities
- Latest technology and upgradable solutions
- Professional staff providing superior customer service and support
- Flexibility to adapt solution to business environment, operations, and growth
- Minimal cost for initial consultation and recommendations
- Our solution will allow your staff to focus on improving your business operations
- Supply Network Agency staff is fully certified in appropriate professions

4. Cost Summary

The following cost summary has been developed as an estimate of the costs associated with the proposed solution to an organization with about 20 supervisory personnel. These costs are an estimate only. Based on acceptance of this proposal, our team will work with you to develop a detailed list of requirements, develop your tailored solution, and provide a more focused and applicable cost estimate.

The proposal is tailored towards the requirement of the client in which considering the current practice and standards implementation. Therefore we come up with the solution to split the IMS/OHSAS consultancy and IMS integrity maintenance package services (add on Package).

The detail breakdown of the costing shall be available on the item number 8. However the summary of the costing for the implementation shall be RM 37 000.00 and RM 24 000.00

ABOUT SUPPLY NETWORK AGENCY

Organization History and Overview

Supply Network Agency develops, markets, and supports Quality Management system outsourced solution and Internet applications, using the latest technologies to provide practical, user-friendly solutions for small and medium-sized businesses, home-office entrepreneurs, professionals, middle managers and executives. The company is a privately-owned corporation and is currently in the process of opening offices in different countries to better cover new emerging markets. The company's head office is located in Rawang, Selangor.

Since 2011, the founders are meticulously following the development of the Internet and Quality Management system. Back in 2014, well before the "Internet Of thing" revolution, they started an effort with the goal of analyzing and exploiting different Internet-related opportunities. In July 2016, operating under the project name IMS, and convinced that they had found a very promising approach to take a dominant position in the market, the founders focused their energies on a project that evolved to become the system of Supply Network Agency.

Today, Supply Network Agency is established in market niches that hold a great potential to enhance how business is conducted. Our mission is to empower small and mid-size businesses with internal organization communication services and business automation tools. Being an innovative and technology-savvy organization, we strive to help our clients reach their full market potential. Supply Network Agency is continually working to improve existing products and services and to introduce new ones to satisfy Small and Medium Business needs.

Our Mission

By providing an essential element of Outsourced QMS Business Solutions, we aspire to be renowned for our capacity to assist our clients in becoming more competitive, in a world where businesses transact at an unprecedented speed. The QMS potential to engage a global and open market promises to define what will become the ground rules for commerce in the 21st century. Excited about what the future holds, we would like to lead our client to the next level, one day at a time.

Our Business Model

Supply Network Agency promote and supports its services through co-marketing agreements and strategic partnerships with business solution providers, resellers and marketing firms. In addition to our own expertise, we foster close ties to a select group of value-added resellers to provide clients with specialized knowledge and regional expertise.
